FROM OUR FAMILY - TO YOURS

For over 25 years, we have been serving families whilst keeping ours in mind. Our principles are based on a simple question: how would we want our loved ones to be treated? Our values are based on simply that: ethics, morals, and loyalty.

WHAT WE BRING TO THE TABLE

SUSTAINABILITY

We know that you care for the planet just as much as we do. We strive to offer products that are made of wood from sustainable and certified forestry operations.

HEALTH

We carefully source our wooden flooring and façade products from trusted manufacturers, ensuring they meet strict health standards and comply with state of the art emission standards. Our goal is to bring you beautiful, safe, and healthy spaces.

UNFADING QUALITY

Experience timeless elegance with our wooden products—unfading quality that stands the test of time, transforming your space with enduring beauty.

EASE OF MAINTENANCE

You make a house to relax in, not to be unduly worried about it. We understand that; that's why we bring you products that require the lowest possible maintenance, that are specifically designed to be headache free.

SATINDER CHAWLA,
FOUNDER AND MANAGING DIRECTOR

OUR COMMITMENT TO THE ENVIRONMENT

Caring for the environment has been at the heart of our mission since we began in 2000. From the very start, we have searched the world for the finest wood products—not just for our customers, but for the planet as well.

Sustainability is our foremost consideration when selecting products. While it is easy to source wood from non-sustainable forests, we go the extra mile to ensure that our materials come from responsible manufacturers who share our commitment to environmental stewardship. Through careful research and due diligence, we partner only with those who uphold ethical forestry practices.

By choosing our flooring, you are not just enhancing your home—you are also supporting sustainable forestry and contributing to a healthier planet for future generations.

ADVANTAGES OF SPAN ENGINEERED FLOORS

Span engineered wood floors have many advantages. These floors come in many different formats and colours. They provide superlative stability as compared to solid wood floors. Furthermore, they can be renewed, unlike laminate floors. Explore our engineered wood flooring collection to have your breath taken away by their timeless excellence.

A TESTIMONIAL FROM THE HOMEOWNER

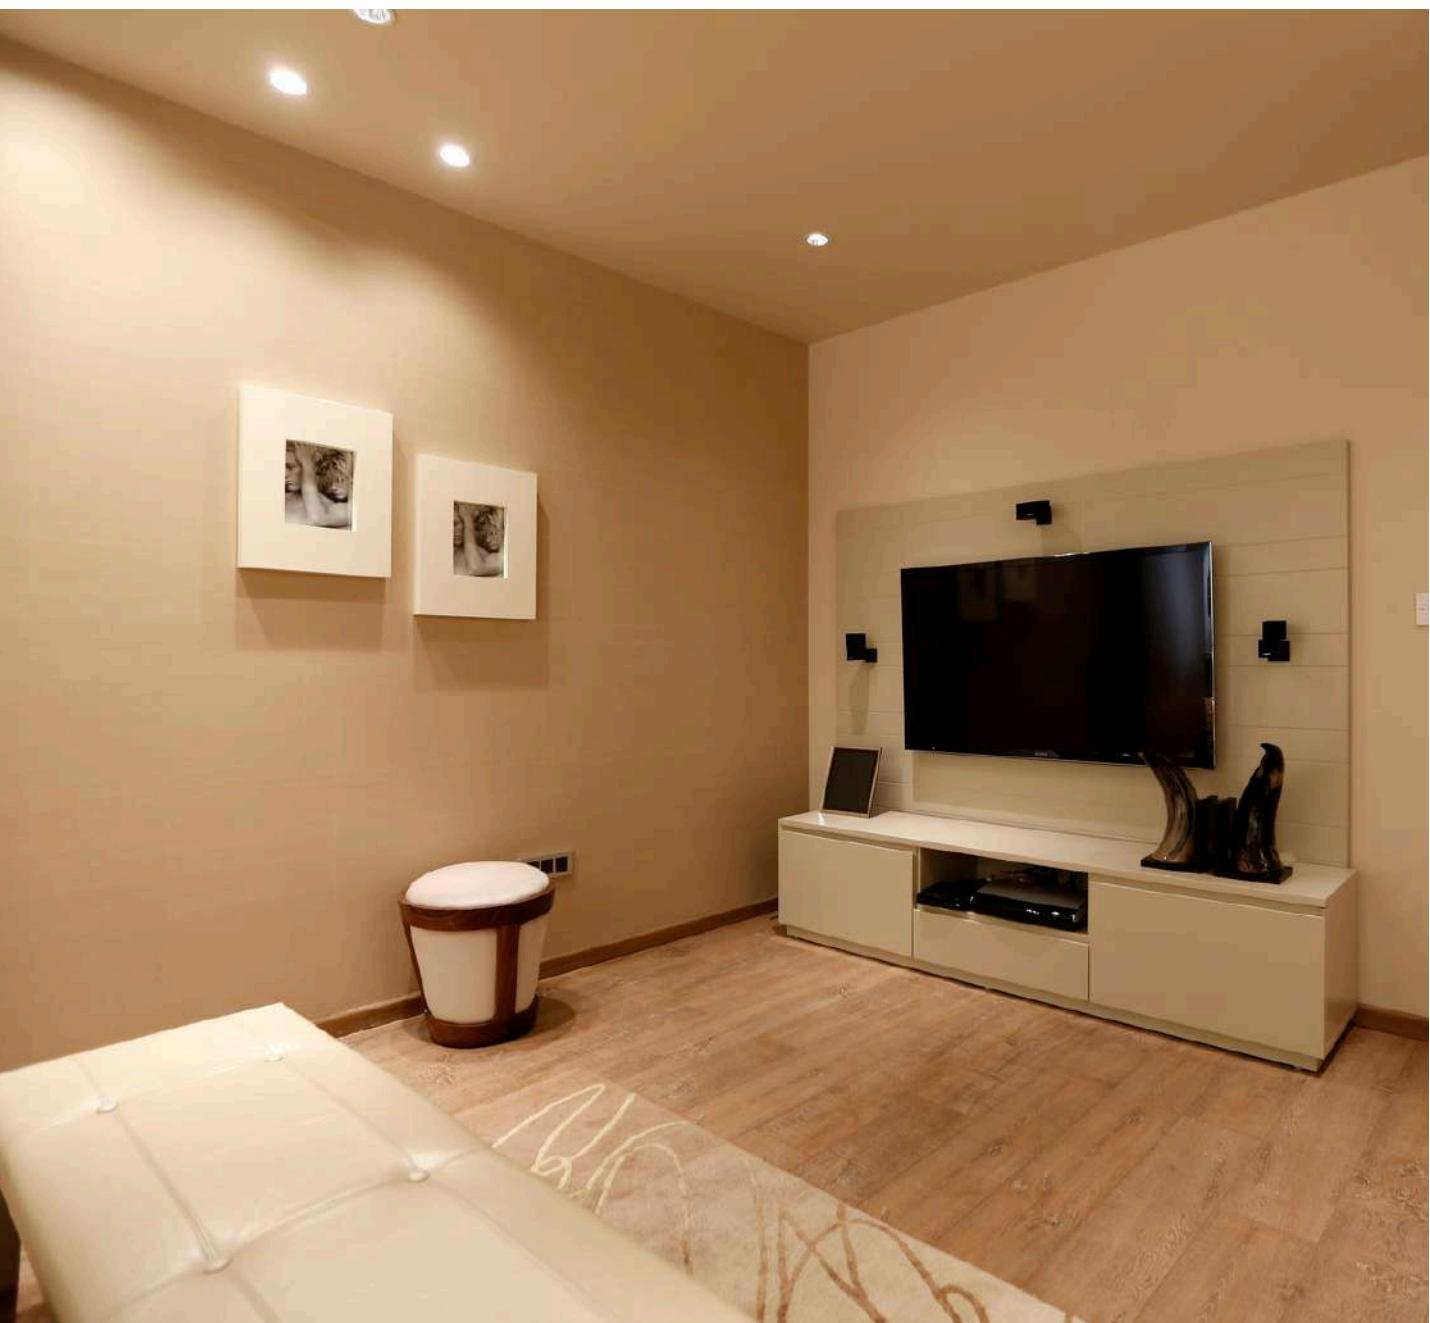

"We had a wonderful experience with Span Floors. We recently had our house built and got the wooden flooring and facade wood from Span Floors. We were really impressed by the product range, staff, product quality and the services we got by the team. Our whole experience was very smooth and would definitely recommend their services."

ADVANTAGES OF SPAN LAMINATE FLOORS

Not only do Span laminate floors look and feel very close to real wood floors, but they're also very practical. For example, in a young child's room, or maybe a guest room, or even a rental accommodation.

WORDS FROM THE FOUNDER

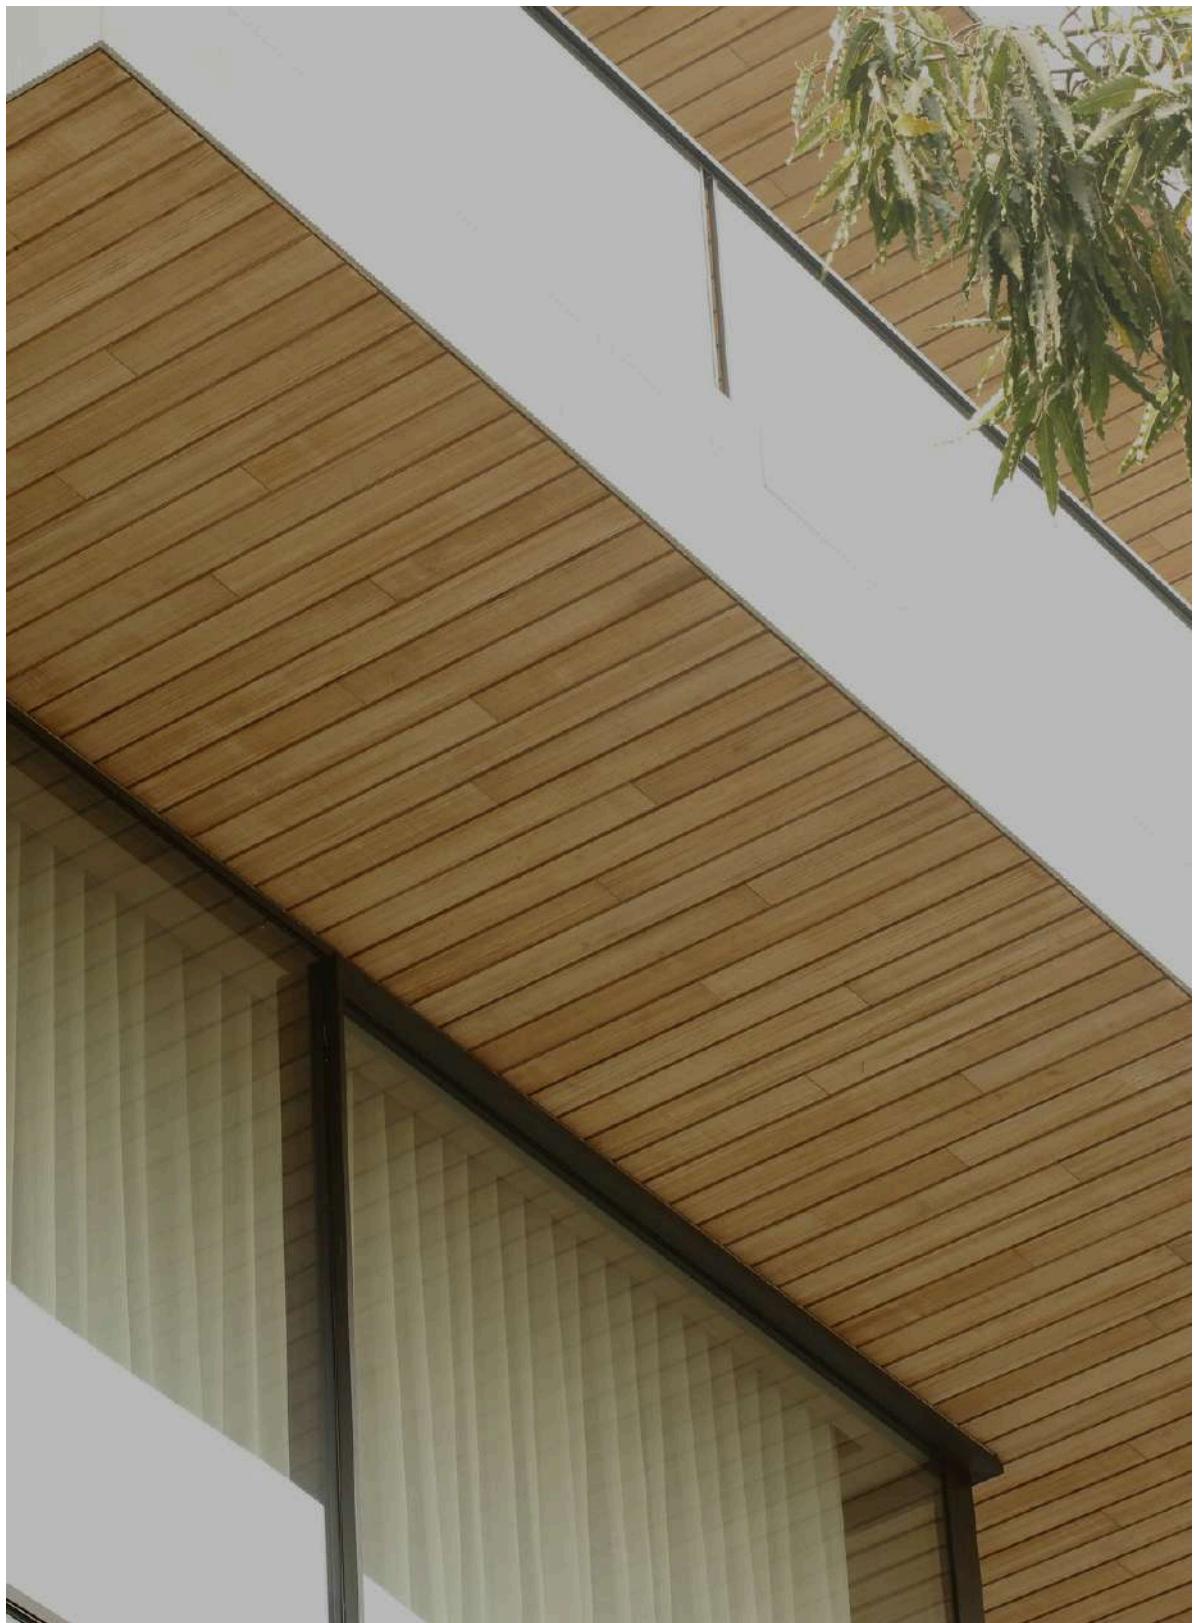

Today, fortunately, with growing awareness about the impact of harmful chemicals, a lot of low-impact products are available on the market. The question is, are we searching for them?

Satinder Chawla,
Founder and Managing Director

HAUZ KHAS PROJECT, NEW DELHI, INDIA

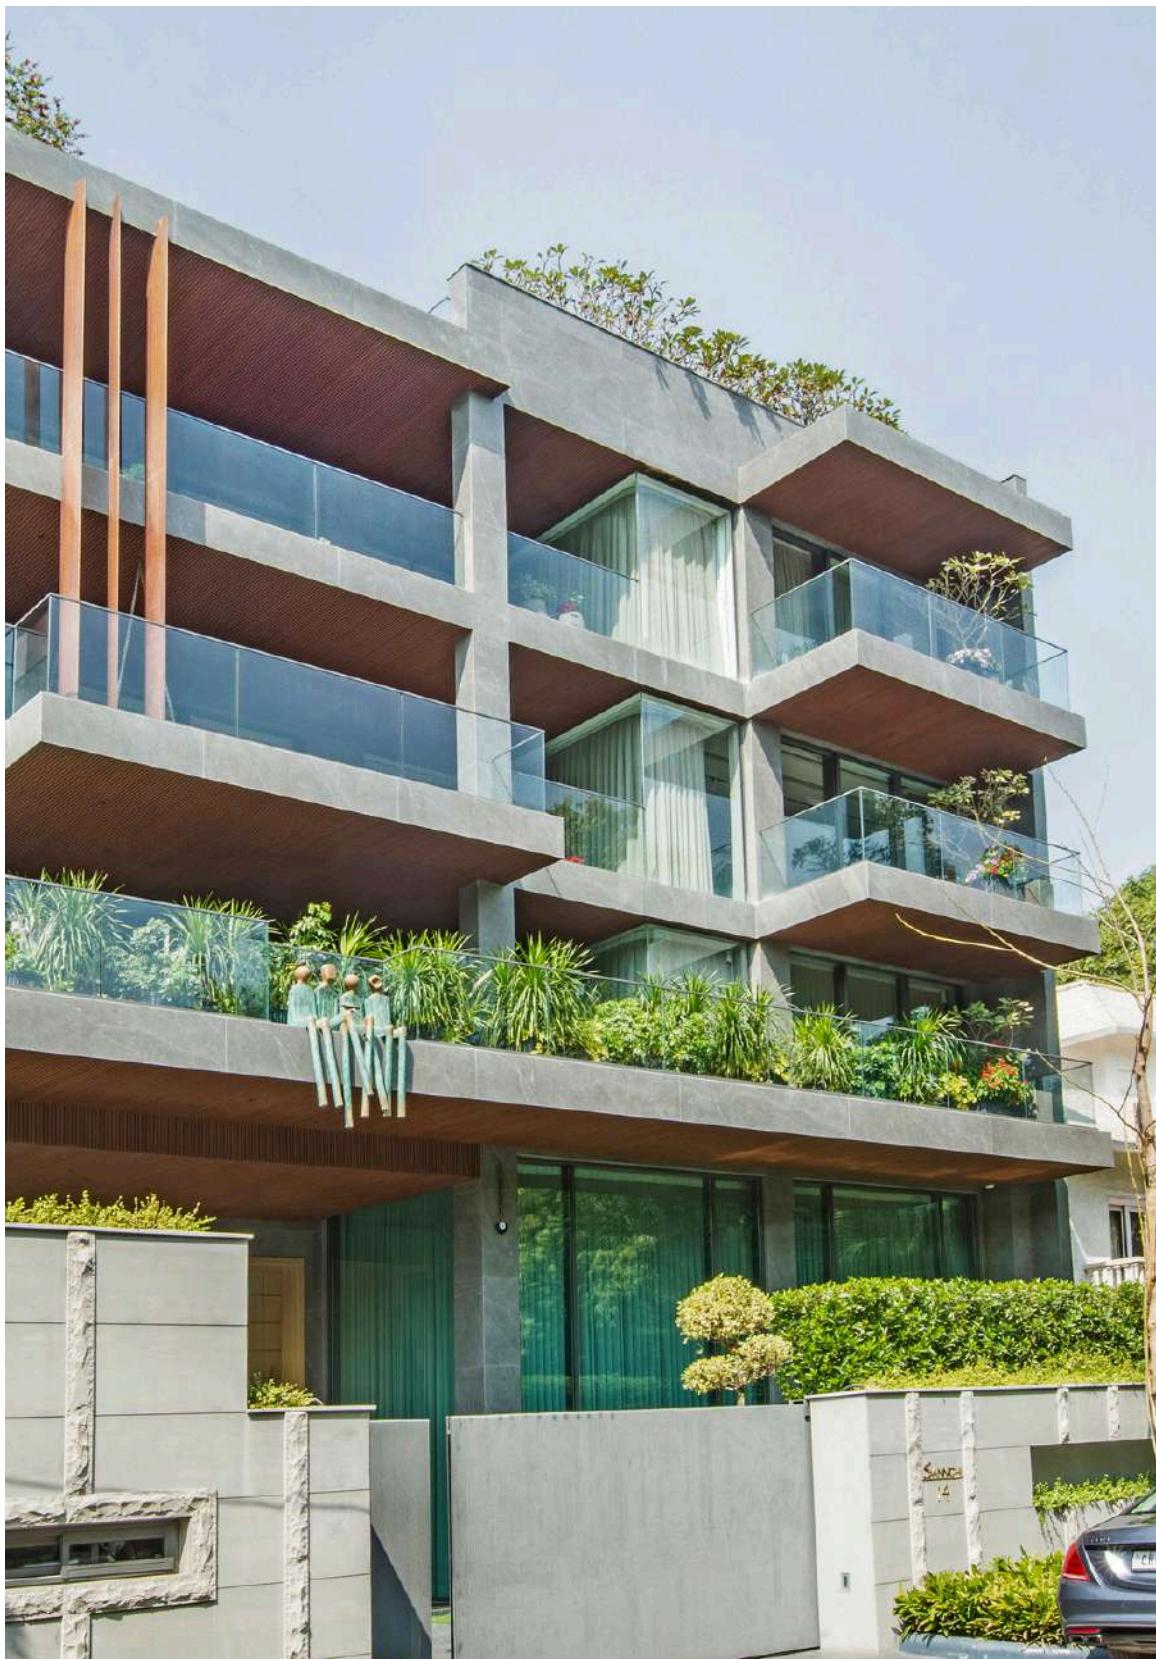

WORDS WE LIVE BY

Don't ever do anything as though you were an amateur. Anything you do, do it as professional to professional standards. If you have the idea about anything you do that you just dabble in it, you will wind up in a dabble life. There will be no satisfaction in it because there will be no production in it that you can be proud of.

L. Ron Hubbard

INTERNATIONAL INSPIRATIONS

We take pride in the companies we work with. We bring you flooring, facades, and decking options from the most innovative manufacturers from all across the world. Here, we illustrate some of our favourite international projects using the products we offer to get you inspired.

THAI MASTERS

We bring you the following projects from a Thai Brand - Champaca.

They offer timeless yet contemporary solutions to your flooring needs. Their ingenuity has seen their floors installed in esteemed hotels such as the Kempinski in Phuket.

We are delighted to be able to provide you with products from such a professional and innovative company.

EUROPEAN BRILLIANCE

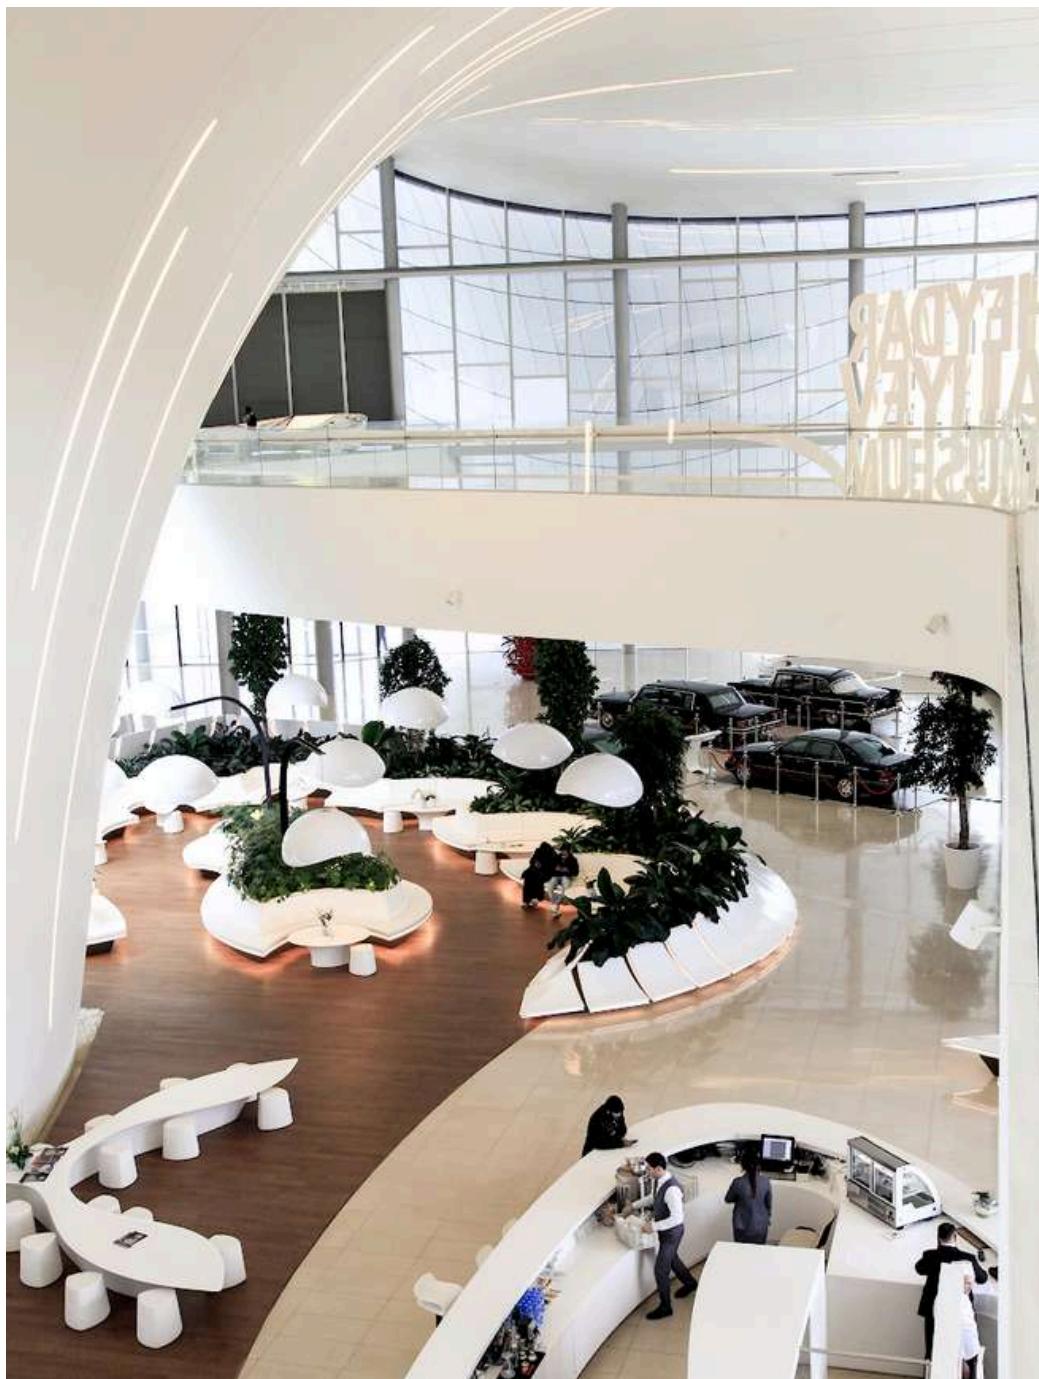

We bring you the following projects from a European Brand - Coswick.

With heavy-hitter projects under their belt, such as the Le Train Bleu Restaurant in Doha and a legendary project with the esteemed architect Zaha Hadid in Azerbaijan, there is no doubt that Coswick's products are as refined as they get.

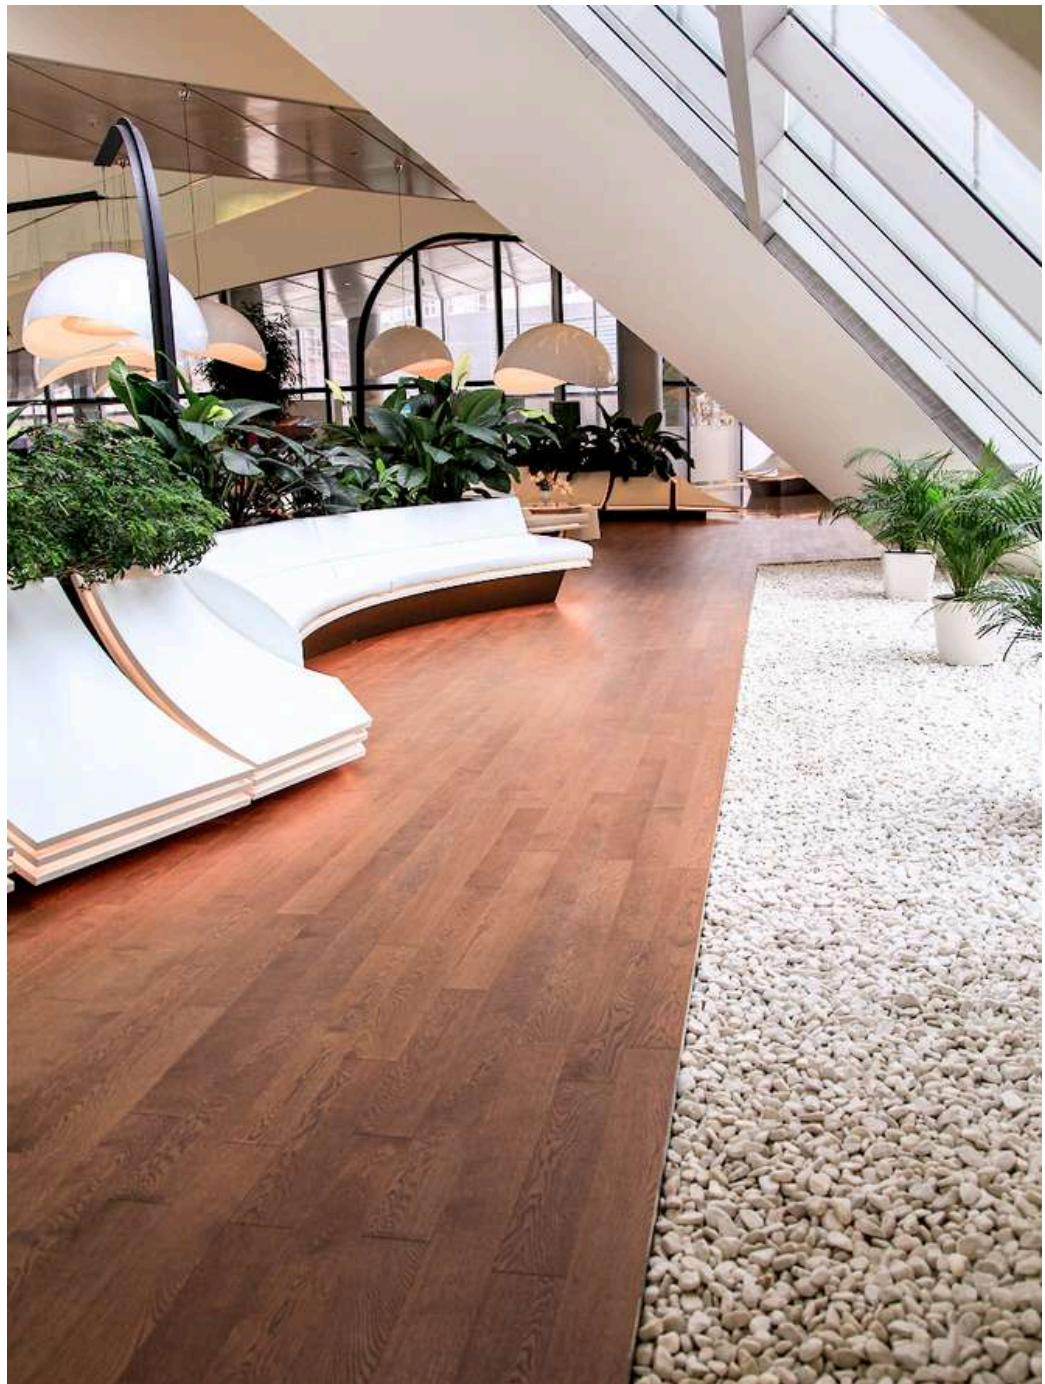

We are proud to extend a nearly decade-long relationship with such a company. We are also delighted that we get to share their excellence with you in your architectural endeavours.

SURREAL BEAUTY FROM NEW ZEALAND

We bring you the following projects from a Kiwi Brand- Abodo.

The serene beauty of New Zealand is captured in Abodo's products perfectly. With some of the most stable and aesthetically pleasing solutions in outdoor cladding and decking, there is no doubting Abodo's impact on the world's architectural scene.

We feel extremely lucky to extend a nearly decade-long relationship with them as well. Even more so, we are happy that we are able to share their excellent cladding and decking solutions with luxury homeowners and innovative designers such as yourself.
